

## Chief Metallurgist

### OVERVIEW

Alexco Resource Corp. owns the majority of the historic high-grade Keno Hill Silver District located in Canada's Yukon Territory. With nearly 1,000 meters of underground development completed at our two new deposits and a robust Pre-Feasibility Study released, Alexco moved towards a production in Q4 2020. This is a great opportunity to be part of the team that is building one of the highest-grade silver operations in the world.

This is a great opportunity to be part of the team that is building one of the highest-grade silver operations in the world. The company has an immediate opening for a **Chief Metallurgist**.

### Overview:

Reporting to the Mill Manager, the Chief Metallurgist is responsible to oversee the day-to-day processing of ore and direct all metallurgical activities including the assay lab. This will be a 14 day on / 14 day off rotation at our Keno Hill Project in Elsa, Yukon.

### Key Responsibilities:

- Responsible for the day-to-day production, instrumentation, quality control, and trouble-shooting problems within the Metallurgy department;
- Monitor plant performance, analyze trends that can be used to identify areas and opportunities to improve plant performance;
- Conduct plant investigations and seek improvement opportunities to increase throughput and reduce cost as required;
- Work closely with all departments to ensure environmental compliance and safe functionality of plant operations;
- Communicate proficiently and be able to provide technical assistance and analysis to stakeholders;
- Responsible for month end reporting;
- Able to train, coach and develop.

### Qualifications:

- Degree in mineral processing, metallurgy, or chemical engineering;
- Minimum of 10 years of experience in ore processing with experience in supervising teams;
- Knowledge of the principles and methods used in metallurgical and processing analysis;
- Resourceful with superior analytical skills;
- Excellent interpersonal, written, and verbal communication skills required;
- Excellent organizational skills, detail-oriented and the ability to work with others in a team environment;
- Strong commitment to working in a safe, socially responsible manner;
- Proficiency in Microsoft Office programs.
