

Medic/Health & Safety Coordinator

OVERVIEW

Alexco Resource Corp. owns the majority of the historic high-grade Keno Hill Silver District located in Canada's Yukon Territory. We're developing two underground new deposits, the Bermingham mine and the Flame & Moth mine. The initial ore production at Bermingham mine was achieved in August 2021 and continues to further scale-up underground activities. The underground development continues at the Flame & Moth mine; Alexco is advancing the district towards full production. This is a great opportunity to be part of the team that is operating one of the highest-grade silver operations in the world.

We are looking for an individual to join our growing team. The **Medic/Health & Safety Coordinator** will report to the Health & Safety Manager. Your primary responsibilities will be to provide pre-hospital emergency medical care and for the implementation and compliance of our Health and Safety program.

This is a 14 day on / 14 day off rotation at our Keno Hill Mine in Elsa, Yukon.

RESPONSIBILITIES

- Assess extent of injuries or medical illnesses of patients to determine emergency medical treatment
- Administer pre-hospital emergency care to patients such as oxygen therapy, cardiopulmonary resuscitation (CPR), spinal immobilization, bandaging and splinting where required
- Assess extent of injuries or medical illnesses of patients to determine emergency medical treatment
- Administer pre-hospital emergency care to patients such as oxygen therapy, cardiopulmonary resuscitation (CPR), spinal immobilization, bandaging and splinting where required
- Transport patients by land to medical facility for further medical care via onsite ambulance
- Document and record nature of injuries, illnesses, and treatment provided
- Maintain emergency care equipment and supplies
- Ensure compliance by all management, supervisors, and employees with Yukon regulatory and company requirements as they relate to the safe and healthy operation of the mine site
- Perform planned inspections and risk assessments to identify and address unsafe conditions or hazards in the workplace
- Identify health & safety concerns and hazards by surveying environmental, operational, and occupational conditions; investigate violations & recommend preventative programs
- Lead incident investigations identifying root causes and assisting in the development of meaningful corrective actions
- Ensure all safety equipment and tools are available and maintained in a ready to use condition
- Participate in daily safety interactions and support the supervisors in the maintenance of surface & underground safety programs including participation with safety meetings, workplace inspections, job observations, job hazard analysis, OHSC activities and incident investigations where required
- Perform evaluation of best practices and approaches to the design and implementation of health & safety programs

- Support and lead strategic health and safety improvement initiatives
- Engage and support employee and contractor participation in health and safety programs and initiatives
- Inform and educate employees and contractors concerning health and safety requirements, standards, etc
- Facilitate safety training
- Perform hygiene duties including area and personal air sampling with gas monitors and air sample pump systems

REQUIREMENTS

- 2 + years of Advanced First Aid experience, preferably within a mining or industrial setting
- 5 + years of Health & Safety experience with a wide range of duties and increasing responsibilities
- Preferably possess 3 + years of combined mining experience, of which 1+ years should be underground
- Must possess at a minimum Advanced First Aid & CPR certification
- Possess a class 4 driver's license or the ability to obtain
- Advanced skills with Microsoft Office Suite – Word, Excel, PowerPoint
- Proven communications skills and ability to work as a team player
- Pre-employment testing will be mandatory (drug/alcohol, lead blood, audiogram, etc.)
