

Mine Production Engineer

OVERVIEW

Alexco Resource Corp. owns the majority of the historic high-grade Keno Hill Silver District located in Canada's Yukon Territory. We're developing two underground new deposits, the Birmingham mine and the Flame & Moth mine. The initial ore production at Birmingham mine was achieved in August 2021 and continues to further scale-up underground activities. The underground development continues at the Flame & Moth mine; Alexco is advancing the district towards full production. This is a great opportunity to be part of the team that is operating one of the highest-grade silver operations in the world.

We are looking for an individual to join our growing team. The **Mine Production Engineer** will report to the Chief Mine Engineer. Your primary responsibility will be to provide technical support for all engineering activities at the mine.

This is a 14 day on / 14 day off rotation at our Keno Hill Mine in Elsa, Yukon.

RESPONSIBILITIES

- Respect, know and promote regulation and policies with regard to health and safety
- Deliver and drive daily, weekly, monthly mine plans to meet production and cost objectives
- Effectively communicate engineering plans and schedules to the underground workforce
- Integrate long range objectives into short range planning goals
- Develop detailed driving layouts for development and production headings
- Generate longhole stope layouts along with drill and blast design
- Provide plans and design of auxiliary services, such as ventilation, electrical, dewatering, and compressed air
- Sign and check driving layouts and other designs produced from technical services
- Tour underground mines and provide engineering direction to underground mine crews
- Develop and implement standard operating procedures promoting safe mining operation and quality control

REQUIREMENTS

- Bachelor's degree in Mine Engineering or similar
- Must be able to register for a P. Eng in the Yukon Territory
- 2-5 years of underground mining experience
- Experience in narrow vein mining and ground control background will be considered an asset
- Above average computer skills in CAD software such as Deswik and in Microsoft Excel
- Excellent communication skills in English, and work in a team environment
- Must have a valid Class 5 driver's license

REWARDS & CULTURE

Alexco Resource offers a competitive remuneration package. We provide a supportive culture that prides itself on teamwork, professionalism, and safety. Apply today.
