

Miner 2

OVERVIEW

Alexco Resource Corp. owns the majority of the historic high-grade Keno Hill Silver District located in Canada's Yukon Territory. We're developing two underground new deposits, the Bermingham mine and the Flame & Moth mine. The initial ore production at Bermingham mine was achieved in August 2021 and continues to further scale-up underground activities. The underground development continues at the Flame & Moth mine; Alexco is advancing the district towards full production. This is a great opportunity to be part of the team that is operating one of the highest-grade silver operations in the world.

We are looking for an individual to join our growing team. The **Miner 2** position will report to the Mine Supervisor.

This is a 14 day on / 14 day off rotation at our Keno Hill Mine in Elsa, Yukon.

RESPONSIBILITIES

- Follow safe working practices and site safety guidelines
- Responsible for the preparation for advancement of development headings
- Install ground support with conventional mining tools and/or Maclean bolter
- Visually inspect sound, scale, and wash down work area; check for bootlegs and miss holes, flags and lifters and paint the face
- Assess ground conditions at the face and implement ground control according to site requirements
- Perform minor repairs such as changing striker bars, couplings, water tunes and hose clamps
- Complete daily reports on equipment and workplace and submit written and verbal reports to the supervisor
- Load and prime development &/or production rounds following engineering design
- Blast according to company standards, including the placement and removal of guards
- Maintain working area and equipment in clean and orderly condition
- Coach and mentor other employees

REQUIREMENTS

- Strong safety mindset
- Valid Class 5 Driver's License
- Mine Rescue Certification and Underground Blasting Certification would be highly regarded
- Demonstrated ability to read mine plans and specifications for underground mining
- Ability to undertake drilling and blasting activities in a safe and efficient manner
- Proficient in multiple functional areas typically associated with underground mining
- Qualified to operate various pieces of underground equipment safely and productively
- Strong communication skills, both written and oral

- Ability to understand and follow instructions
